Memorandum

CI STAFF USE ONLY

TO : CI/RMO

DATE: 10 March 1964

FROM : CI/MRO

SUBJECT: Name Tracing Course

George - on the Name Tracing Course, the last paper in my file is my memo of 6 February 1964 which states:

25X1A9a

5. Curriculum: CI Staff suggested that CI/RMO [REDACTED] with the advice of nametracers such as Miss [REDACTED] and [REDACTED] should draw up a tentative curriculum for submission to the rest of the group. This was agreed to, and [REDACTED] is underway on the chore.

It was Rock's intention that the Staff take the initiative for the Course, which was the reason you were selected. We can't afford to lose the initiative again, as we did when [REDACTED] dropped the ball somewhere between them. Further, we can't afford to present a proposed curriculum which for one or another reason CI Staff would object to. I therefore trust that you can find time to knock out the curriculum -- without feeling any obligation to submit it to your advisers. Once you have a draft, Rock should have a look at it, as should [REDACTED] and I. This review shouldn't take more than a day or so, and then we can call a meeting of SG, RID, DDP/TRO, and CI to examine your curriculum. (Maybe OTR should be invited in at this point.) That group in turn should submit the curriculum to the CS Records Committee Working Group (two of whose members would already have had a look at it -- the Working Group can then resolve any problems, and the course could be placed in OTR hands.).
